Dear Robert:

I was unable to attribute some of the coins you sent for attribution, but I took a lot of notes that shows some share dies with others you have. I feel they may be unlisted varieties that should be inspected by Leroy Van Allen for possible new listing. I would describe them to him as follows:

1881-O (PCGS ...5290). Doubled profile, not VAM 19, 23, 28. Small perturbation of profile edge in front of eye. Gouge on Liberty's head at edge of hair, behind eye. Spikes in both 8s. This should be seen along with a VAM 19, since the description is close, but the coins do not match.

1881-O (PCGS ...1159, 8627, 2657). Mint mark set left, slightly filled at top and bottom. Thread impression on first right wreath cluster (counting from the bow). Spike on 1st 8, with 2nd 8 slightly doubled at lower left inside of top loop. Bottom of 2nd 1 slightly notched.

1881-O (PCGS ...5644). Double profile, top of Phrygian cap. Spike in first 8, mint mark normal.

1881-O (PCGS ...1046). Shares a reverse with VAM 19, but different obverse. This is the earlier die stage.

1881-O (PCGS ...7031). Clashed 'n', not in same position as 1I, 33A, 50A. Top of flag of 2nd 1 doubled, and lower right side of shaft has a notch.

1881-O (PCGS ...7030). Normal reverse, spike in first 8. Notch of lower left of 2nd 1, similar to VAM 24, but 24 has no spike in the 8.

1881-O (PCGS ...0642). Normal reverse. 2nd 1 doubled on lower right side. Faint spike in first 8. Like VAM 15, but top of 2nd 1 isn't doubled. Same reverse as VAM 1A in holder ...1477.

1881-O (PCGS ...9784). Same description as PCGS ...7030 above, but different dies. No other distinguishing features besides polishing lines.

I think I captured everything that I couldn't pin down here. The lower grade coins with a black 'x' on the back of the label were not attributable due to wear. Going through 100 1881-Os takes a while, but it is a necessary exercise when trying to do a complete study for the date. If you do send these coins to Leroy for attribution, you can return them to me with a copy of his description and this letter I will label them at no charge other than return shipping. For instructions for sending Leroy coins, refer to this page on VAMWorld: <http://www.vamworld.com/Guidelines+for+Die+Varieties>. Leroy charges \$5 per coin plus return postage. You should include a copy of this letter and refer to my description. Where I mention differences with other coins, it would help to send these coins along for comparison to the subject coin. If you have multiple specimens from the same dies, sending an extra will also help with examination.

Leroy is currently working on the annual VAM supplement and requests that no coins be sent until at least mid-February.

Best regards,

A handwritten signature in black ink, appearing to read 'John Baumgart'.
